Career Objective

I have bachelor's degree in Information Technology systems from Port Said University,
being the only software engineer in my village, but that's not my last ambitious, I have many dreams and goals for myself and my community, so I have participated in many volunteering activities and I keep working on developing my skills and knowledge in Front-End Development as I became very passionate about It before my graduation project.

Education

Port Said University   **2019-2023**

Bachelor's Degree in Information Technology Systems
